FEDERAL COMMUNICATIONS COMMISSION OFFICE OF THE SECRETARY

September 7, 1999

Magalie R. Salas, Secretary Federal Communications Commission 445 12th Street, S.W., Room TWB-204 Washington, DC 20554

> Ex Parte, CC Docket Nos. 96-98, 95-185 Re:

Dear Ms. Salas:

Pursuant to Section 1.1206(b)(2) of the Commission's Rules, MGC Communications, Inc. ("MGC") submits this notice, in the above-captioned docketed proceedings, of an oral and written ex parte made on September 7, 1999 with the following parties:

- Commissioner Harold Furchtgott-Roth and his legal advisor Bill Bailey
- 2. Kyle Dixon, Commissioner Powell's legal advisor on Common carrier issues.

The presentation was made by Scott A. Sarem, Assistant Vice President of Regulatory Affairs from MGC and Ross A. Buntrock from Kelley Drye and Warrent aceyb-w@email.msn.com During the meeting the parties discussed MGC's need for certain unbundled networkolly Pace elements. These proposed network elements were detailed in presentation materials Manager, Legal Administration materials 702.310.1024 and include information regarding the following topics:

- Access to unbundled loops, including loops located behind remote switches, access nodes, integrated digital loop carriers, etc.;
- Network interface devices and inside wire:
- Interoffice transport;
- Dark fiber;
- Cross-connects being included as part of the local loop; and
- Sub-loop unbundling as well as the ILECs' ability to provision sub-loops.

Who is MGC Communications?

- Facilities based CLEC providing competitive local voice and data services to Residential and Small Business Consumers in CA, NV, IL, GA, and FL. Expanding Network in 20 new markets.
- Collocated in approximately 250 ILEC Central Offices in Five States representing approximately 12 million addressable lines.
- Provide ubiquitous service through the leasing of unbundled loops from Incumbent Local Exchange Carriers
- Approximately 100,000 access lines provisioned on MGC switches.
- Service offerings to Residential and Small Business Consumers in the manner contemplated by the Telecommunications Act of 1996.
- Current Customer base is approximately 40% Residential and 60% Business.
- One of the Only CLECs providing facilities based residential service.
- Raised over \$440 million dollars through debt and equity to deploy a facilities based local network as permitted by the Telecommunications Act of 1996.

MGC Communications

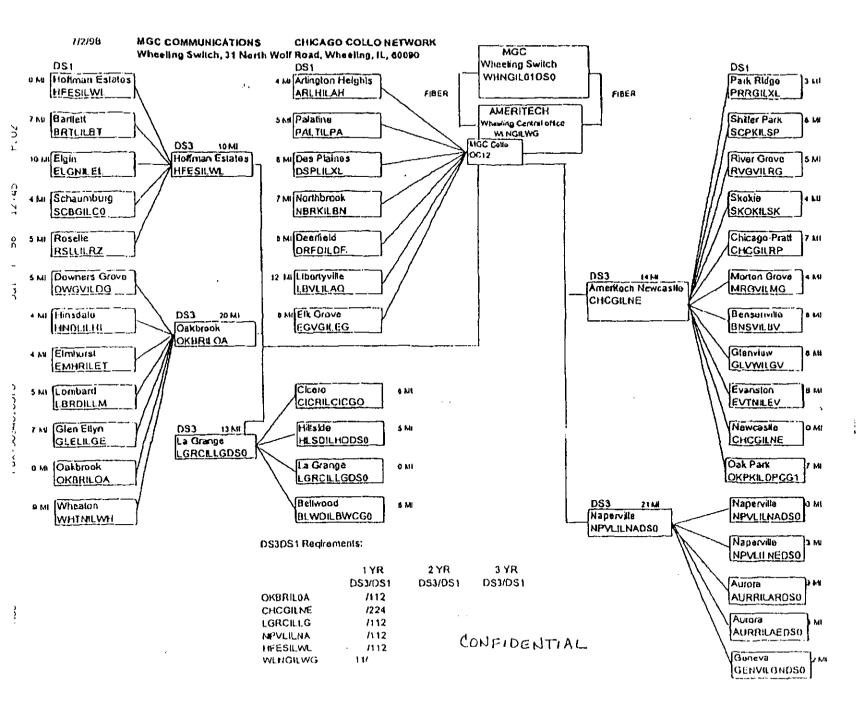

Proposed Unbundled Network Elements

Loops

- These are bottleneck facilities
- All loops should be designated as UNE's so that ubiquitous competition will develop in all sectors of the local market.
 - xDSL capable loops.
 - Loops served by pair gain or digital loop carriers.
 - There should be no special construction charges.
 - ILEC comparisons.
 - Cross-Connects should be included as part of the loop.
 - Subloop Elements.
 - All loops should be priced under forward looking TELRIC Methodology.

• Interoffice Transport

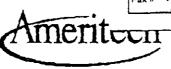

- FCC must clarify that transport is both between ILEC offices, and between an ILEC office and a CLEC point of presence.
 - ILECs should not be allowed to gate competition by refusing to build additional UNE inter-office transport
 - There must be a clear rule that requires ILECs to provide access to Dark Fiber
